ONE SOLDIER IS HURT SERIOUSLY

Seven Shots Are Fired at Rapidly Moving Train Near Mingo Junction, O

CARE FOR MEN ON TRAIN

STUEBENVILLE, O., Sept. 14.—A troop train on the Pennsylvania railroad was fired upon tonight near Mingo Junction, O., according to reports received here. Four soldiers are said to have been wounded, one seriously. The wounded men remained on the train which is proceeding to Pittsburgh.

Information as to the identity of the troops or the destination of the train was withheld by railroad officials because of military regulations.

It was said the train was fired on while moving at a rapid rate thru Mingo Junction, but that no stop was made until this city was reached, the wounded men being cared for by the detachment of medical troops aboard. The information that four soldiers were shot was given railroad detectives here by officers in charge of the train. Seven shots were fired according to advices here. Railroad detectives and city police were rushed to the scene of the reported attack, but were unable to learn anything as to the identity or whereabouts of the persons who fired the shots.

A colony of several hundred foreigners, the majority of them steel workers, resides near the place where the attack is said to have occurred.

SENATE TAKES UP WAR CREDITS BILL

WASHINGTON, Sept. 14.—The war credits bill was taken up by the senate today and prepared for passage tomorrow in about the form it passed the house by unanimous vote last week.

It is conceded that no changes affecting the amount of bonds and certificates—\$11,538,000,000—or their interest rates will be made and that the bill will pass practically by unanimous consent.

Today's debate was perfunctory with the average attendance of senators below a dozen. The only contest was on an amendment by Senator Brady which was rejected, proposing a specific appropriation of about \$5,000,000 for newspaper and periodical space in advertising new bonds.

Amendments of the senate finance committee adopted included those increasing from one seventh to one fourth of one per cent of the bonds and war savings certificates the expense allowance for notation, and decreasing from one tenth to one twentieth of one per cent the allowance for the indebtedness certificates.

BEGIN DEBATE ON DEFICIENCY BILL

WASHINGTON, Sept. 14.—Debate began in the house on the urgent deficiency bill, appropriating more than seven billion dollars for the war with a statement by Representative Fitzgerald, chairman of appropriations committee reviewing the country's financial situation and war expenditures of European belligerents.

Representative Fitzgerald gave figures estimating that all the nations at war have spent \$90,000,000,000 since the war began. Great Britain's bill was placed at \$18,500,000,000; Russia's \$15,000,000,000; France's \$15,327,400,000; Italy's \$13,120,000,000; Germany's \$21,300,000,000 and Austria's \$12,800,000,000. The United States, he said, expects to spend during her first year of war \$18,208,000,000, a considerable part of which will make provisions for two year's operations.

LOWDEN REMAINS ON SCENE OF STRIKE

Governor Closes Trip to Preside at Chicago Meeting

Executive Sends Message, Which is Not Given Publicity, to the General Strike Committee — Response is Expected to Have Bearing on General Strike.

BULLETIN
SPRINGFIELD, Ill., Sept. 14.—It was reported late tonight that the strikers decided at an executive meeting to ask for a permit for another parade next Sunday. This is all they demand as a settlement of the sympathetic strikes which developed from that of the street car men. It was said that if the parade were not interfered with all strikers, except employees of the street car company, would be back at work again Monday morning.

It is said that there is no official opposition to granting the permit. The meeting lasted until after midnight. It was closed to outsiders and a press committee which was appointed disappeared after adjournment.

It was learned, however, that the grievance of the 8,000 sympathetic strikers was against the breaking up of the parade which was started last Sunday as an aid to the striking street car men. One hundred and seven men are at work on the cars and 37 still out. Service was practically normal today and there were no disorders. At tonight's meeting discussion was practically confined to the parade. Responsibility has not been fixed for the interruption of last Sunday's demonstration, but the strikers are said to have been assured there will be no repetition of it if they wish to march next Sunday.

Springfield, Ill., Sept. 14.—Increasing seriousness of the general strike situation here led Governor Frank O. Lowden to abandon his trip to Chicago to preside tonight at the Root patriotic meeting. After the conference this morning with a subcommittee of the great strike committee the governor decided to remain in Springfield where more than 8,000 strikers, affecting practically every industry have walked out. At the morning conference the governor was told the tie up was meant to be a protest against the action of the authorities in denying unionists permission to parade Sunday in support of the street car strike.

Governor Lowden sent a message which was not given publicity to the general strike committee thru the men who waited on him today. The response to the governor, therefore, is expected to have a bearing on the general strike. Whether reply would be made tonight could not be learned.

Carpenters who had been working on several school buildings, in an effort to complete them for the opening of classes Monday, quit today.

Housewives with baskets were in evidence on downtown streets today, having been forced to buy groceries and household supplies there because many groceries in the outlying districts were closed, due to the strike of clerks and fear of bodily harm on the part of the owners. With warmer weather, hardship was experienced also by packing companies and even by families who are deprived of ice by the walkout of ice wagon drivers.

Bakers have remained at work and are turning out the usual supply of bread, and dairy workers continue to deliver milk.

Some manufacturing plants will be forced to shut down entirely within a few days, it was reported, for lack of coal. This is due both to the idleness of the miners and the strike of teamsters, it was said.

Federal authorities say they have discovered no direct evidence of organized anti-American influences at work, although some of the strikers are known to be unfriendly to the American cause.

The ninth and tenth Illinois infantry regiments are encamped at various points about the city, and the eleventh infantry, fully equipped, is being held at Camp Lincoln in readiness for a call.

Only minor disorders have been reported recently in connection with the operation of the street cars. Apparently there is no disposition on the part either of the street car strikers or the car company to settle their differences which hinge on the question of preferential runs.

GEN. KRYMOFF DIES

Petrograd, Sept. 14.—General Krymoff, commander of the troops of General Korniloff sent to attack Petrograd, the official news agency announces, has succumbed to the wounds he inflicted upon himself last night after an interview with Premier Kerensky.

BRITON OUTPOINTS CROSS

New York, Sept. 14.—Jack Briton of Chicago outpointed Marty Cross of New York in every round of a ten round bout here tonight. Each weighed 147 pounds. Ted Lewis of England, welterweight champion, outfought Jimmy O'Hagen of Albany in a ten round contest. Lewis weighed 143 pounds and his opponent 155.

OFFICERS TO UNDERGO MORE INSTRUCTION

ROCKFORD, Ill., Sept. 14.—A number of lieutenants and captains assigned to the 86th division of the National Army, will undergo additional instruction, according to an order received by Major-General Barry, commandant at Camp Grant today. The men will be allowed to volunteer for work at Fort Still, Okla., reporting there by September 20. The number to go has not been determined.

Another order, from the assistant adjutant general, advised the commanders that no standards or guidons will be carried into battle in this war, but will be left well in the rear. The reason is obvious but the edict will be a blow to war poets.

DANIELS SPEAKS TO NAVA LRESERVE ENSIGNS

Describes Remarkable Development of the Navy

Secretary Credits President Wilson With Giving the Initial Impetus to the Movement Which Resulted in a Great Expansion of the Service.

Annapolis, Md., Sept. 14.—The remarkable development of the navy in the last year was described by Secretary Daniels in an address at the naval academy today to the graduating ensigns of the naval reserve. He credited President Wilson with giving the initial impetus to the movement that has resulted in a great expansion of the service.

The graduates, one hundred and seventy four in number, are members of the corps of reserve naval officers who have just completed a three months intensive course of instruction to fit them for duty aboard ship or on shore.

Coming From President's Speech.
"The impulse that has made possible our rapidly expanding navy," declared Mr. Daniels, "came from a speech made by President Wilson in St. Louis on the third day of February, 1916, when he declared 'there is no other navy in the world that has to cover so great an area of defense as the American navy, and it ought, in my judgment, to be incomparably the most adequate navy in the world.'"

"Following close upon the declaration of the president," continued Mr. Daniels, "congress took a radical and forward step on its naval program. It abandoned the plan of a yearly authorization of new ships and adopted a three year building program. Shortly thereafter, it increased the naval appropriation from an average of former years of \$145,600,000 to \$312,888,000, and since the first of August, 1916, has appropriated for the support and increase of the navy \$1,344,184,896, while estimates pending before congress carry an addition of nearly six hundred million dollars. The aggregate appropriation in little more than a year, to make effective and impregnable the nation's first arm of defense, is including pending estimates nearly two billion dollars."

Number of Ships Trebled.
"I am not publishing a military secret when I say that while the increase in personnel in the past few months has far surpassed the increase in material, there are three times as many ships in commission today as there were six months ago; and that ships and more ships, from enlarged and ever enlarging ship yards are coming to afford a place on naval craft to the thousands of patriotic young men who have crowded into the navy since the call."

STATE SUFFERS A TEMPORARY REBUFF

RED OAK, Ia., Sept. 14.—Counsel of the state suffered at least a temporary rebuff today in seeking admission of the testimony of four of the five witnesses it called in trial of the Rev. Lyn George J. Kelly for the murder of one of the victims of the ax tragedy at Villisca, Ia. Until its competency could be shown the court ordered stricken from the records certain evidence the state attempted to introduce in an effort to show that a bloody shirt sent to a Council Bluffs, Ia., laundry immediately after the murders was owned by the defendant.

When court adjourned late today until Monday morning nineteen witnesses had been examined since the opening of the trial, fourteen of them today.

The state announced that it could have witnesses next week to place into the record certain testimony stricken therefrom today.

Thru his counsel, the itinerant clergyman declared he felt better tonight than at any time since his indictment, as he believed the "rough places" were passed while F. F. Faville of the prosecution said the state had hardly started to show what evidence it had.

ELIHU ROOT DEFINES TREASON TO AMERICA

Gompers Pledges Labor to Fight Until World Toryism Is Overthrown

SPEAK AT CHICAGO

CHICAGO, Sept. 14.—Treason to America in the world war was defined by Elihu Root and labor was pledged to fight until world toryism had been overthrown by Samuel Gompers at a patriotic rally here tonight under the auspices of the National Security League for the announced purpose of vindicating Chicago against alleged intimations of unpatriotism.

Departing From Speech.
Mr. Root had not gone far before he was interrupted by cries of "Hello Bill" and departed from the text of his speech long enough to declare: "I don't think he understands it. But I think he will some time."

Declaring that General Grant said "let us have peace" only after Lee had surrendered, Mr. Gompers asserted that "after kaiserism surrenders we, too, will have peace."

Patience Ceases To Be Virtue.
"There is such a thing as humility," said Mr. Gompers. "There is such a thing as patience. But when some bully will undertake to make an assault upon an innocent, peace-loving man or woman, then patience ceases to be a virtue and humility brings on the brand of cowardice."

"That was the position in which the United States found itself as a nation by the repeated insults and assaults upon character and upon the lives of our people, our men, our women and our innocent children."

"We have entered into this struggle and there can be no let up until either imperial Germany with her militarism shall surrender to the democracies of the world or the democracies shall crush Germany."

"Germany, altho she is not conquered, is defeated in the objects for which she entered the war."

Judge Dickinson Presides.
Judge Jacob M. Dickinson presided as chairman in the absence of Governor Frank O. Lowden, who telegraphed as follows:
"Springfield is the storm center of Illinois just now and I must remain at my post. The great majority of workmen here are loyal, but sinister influences are at work to involve labor in a hostile attitude toward the government. We must separate these two forces. To do so we must give larger recognition to loyal labor organizations such as those represented by Mr. Gompers. Above all, labor and capital are equally interested in maintaining internal order while this war is on. It will do no good to win battles abroad if we cannot maintain peace at home."

Fronted by a hedge of glistening bayonets, carried by a detachment of national guardsmen, the speakers addressed a crowd which rivalled any national convention throng, both in size and enthusiasm.

Defines Attitude of Citizens.
In defining the attitude of citizens toward the conduct of the war and incidentally what constituted being a traitor, Elihu Root spoke, in part, as follows:

"The declaration of war between the United States and Germany completely changed the relations of all the inhabitants of the country to the subject of peace and war."

"Before the declaration everybody had a right to discuss in private and public the question whether the United States should carry on war against Germany."

"But the question of peace or war has now been decided by the president and congress, the sole authorities which had the right to decide. The question no longer remains open."

"The power to make such a decision is the most essential, vital and momentous of all powers of government."

Exercised Powers Advisedly.
"The power in this instance was exercised not suddenly or rashly, but advisedly, after a long delay and discussion and patience under provocation, after repeated diplomatic warnings to Germany known to the whole country; after clear notice by breach of diplomatic relations with Germany that the question was imminent; after long opportunity for reflection, discussion following that notice; and after a formal and deliberate presentation by the president to congress of the reasons for action in an address which compelled the attention, not of congress alone, but of all Americans and of

OBSERVE BIRTHDAY OF STAR SPANGLED BANNER

FORT SHERIDAN, Ill., Sept. 14.—Student officers in training here at dawn observed the birthday of "the Star Spangled Banner" with elaborate ceremony. In compliance with orders issued by the war department and later emphasized by Colonel James A. Ryan, commandant, the band played the national anthem at Beveille. At the first note the flag was raised and when the banner reached the peak of the staff a salute of twenty-one guns was fired, the first time since the United States entered the war. During the ceremony the entire command stood at "present arms."

Francis Scott Key wrote "The Star Spangled Banner" on Sept. 14, 1813.

RELATIVE SCARCITY OF FOOD ALREADY EXISTS

Chief of Bureau of Markets Speaks in Philadelphia

Declares Bread is Second Only to Bullets as a War Essential—Assures There Should be No Fear of Famine So Far as America's Population is Concerned.

Philadelphia, Pa., Sept. 14.—Declaring that bread is second only to bullets as a war essential, Charles J. Brand, chief of the Bureau of Markets, of the department of agriculture, speaking before the National Conference of the American Academy of Political and Social Science today said that a relative scarcity of food supplies already exists. This shortage is created partly, he said, by unfavorable crop conditions and partly by the changing of forces of production into forces of destruction. The outlook for the current year, however, is good and there need be no fear of famine so far as America's population is concerned, he added.

Animal Production Increasing.
"Animal production has been increasing," continued the speaker, "but not enough to keep pace with the increased population. In cereals the supply must come largely from North America. The long haul from Australia requires too much tonnage to make shipments from Australia dependable. For the same reason considerable quantities of foods from India can not be depended upon. Friction conditions in Russia are likely to keep crops out of market even though they are available. Argentine grain crop is small and the outlook for the next harvest is not encouraging. All these add to the responsibility of the United States and Canada."

To Increase Production.
"The agricultural interests of the United States are working out plans by which every community is to produce its own food and feed as far as practicable and the production of non-perishable staples, such as cereals, is to be increased beyond the local needs in every locality where this could profitably be done. The staples recommended by the department of agriculture for increased plantings are wheat, rye, beans and rice. The country is looking for 18 percent more wheat and a 22 percent increase in rye."

MEXICO MAY TAKE NO ACTION IN MATTER

MEXICO CITY, Sept. 14.—From statements made this evening by men in high government circles, after they had discussed the letter made public by Secretary of State Lansing the relations between Heinrich Von Eckhardt, the German minister to Mexico, and Folke Cronholm, former Swedish chargé d'affaires at the Mexican capital, the conclusion seemed to have been reached that it was not the Mexican government's business to take action in the matter.

Von Eckhardt today denied himself to all visitors. He has made no statement beyond his declaration of last night that the matter did not interest him and that he had never recommended any one for a decoration. M. Cronholm is in hiding, but is believed still to be in the city.

WRITING FINAL CHAPTER OF I. W. W. MOVEMENT

BISBEE, Ariz., Sept. 14.—Bisbee tonight was writing the final chapter in the history of the I. W. W. movement in the Warren district. Sheriff Wheeler, his deputies and the citizens of Bisbee arrested returning men as vagrants today as fast as they arrived in the district from the detention camp at Columbus, N. M. One hundred have been arrested since Wednesday. As rapidly as they are brought here, formal charges of vagrancy are made against them in the police court. Judge Thomas continues their cases until they have time to gather their personal effects and they are told that police charges will not be pushed if they leave the district within two days.

CHARGES TREASONABLE UTTERANCES

Danville, Ill., Sept. 14.—Fred Bauhr, a wealthy troquais county farmer, residing near Watseka was arrested and brought into the United States district court here today by a federal officer, charged with unpatriotic and treasonable utterances.

AGREE ON HALF OF REVENUE LEVIES

Conferees On War Tax Bill Make Rapid Progress

Principal Disputes are Narrowed to the War Profits and Postage Sections, Foreshadowing a Complete Agreement Next Week.

Washington, Sept. 14.—Agreement upon about one half of revenue levies in the \$2,416,000,000 war tax bill was reached today by the senate and house conferees in their first day's work. Such rapid progress was made that the principal disputes were narrowed to the war profits and postage sections fore-shadowing a complete agreement early next week. While conclusions of the conferees are officially said to be tentative there is little probability of further change in the sections passed over. Results of the first meeting included:

Adoption of the income tax normal and surtax rates virtually as revised by the senate and designed to raise \$842,200,000 additional revenue.

Elimination of the house provision levying a one-third increase on 1916 taxes, a retroactive assessment from which \$108,000,000 in revenue was to be raised.

Partial approval of the tobacco section as revised downward by the senate to raise \$56,600,000 as against \$68,200,000 proposed by the house.

Adoption of the intoxicating beverage section virtually as revised upward by the senate to raise \$207,000,000 as compared with \$151,000,000 proposed by the house.

Approval of practically all senate changes in the section taxing public utilities including the three percent levy on freight transportation the assessment on passenger transportation reduced from \$75,000,000 to \$37,500,000; the taxes on Pullman accommodations, pipe line transportation and telegraph and telephone messages costing over 15 cents.

The house conferees also agreed to the elimination of their provisions for levying \$30,000,000 on electric light, gas and local telephone service and \$5,000,000 issuance of insurance policies.

In virtually concluding the income tax rates the conferees specifically wrote into the bill the proposed doubling of the present two percent normal tax and the provision for reduction of exemptions from \$3,000 and \$4,000, respectively, for single and married persons to \$1,000 and \$2,000. The surtax rates on incomes above \$20,000 were said to have been adjusted slightly, but no changes were made in the section causing any appreciable difference in the increased revenue yield.

SUBMARINE SINKS AMERICAN STEAMER

LONDON, Sept. 14.—The American ship Wilmore was sunk on Sept. 12 by a German submarine, according to an announcement made today by the British admiralty. All the members of the crew of the vessel were saved. Further details have not been received.

Sailed from Philadelphia.
New York, Sept. 14.—The Wilmore was a steamship of 5,399 tons gross register built in 1914 at Quincy, Mass., and was formerly known as the Atlantic.

She sailed under the command of Captain James Brewer from Philadelphia, August 26, with a cargo of coal, locomotives and crude oil for a French port. Her owner was the Berwind White Coal Company of New York. The Wilmore was armed.

CABINET CRISIS IN RUSSIA CONTINUES

PETROGRAD, Sept. 14.—The cabinet crisis continued all day. The evening newspapers assert that Premier Kerensky is in very difficult position and that his resignation is not excluded from the possibility. The situation is complicated by the attitude of the Petrograd council of deputies, in which last night's meeting the Bolsheviks for the first time gained an overwhelming majority of 279 against 150 in favor of the extreme radical position which declares that not only the Social Democrats but all the representatives of property owned classes must be excluded from power.

This program also demanded an immediate declaration of a democratic republic, the abolition of private property, working class control over production, confiscation of war profits, the "merciless taxation" of capital, an immediate invitation to the war states to conclude peace.

COMERFORD SPEAKS IN BLOOMINGTON

Cautions Union Men To Beware Of False Counsellors

TRY TO DESTROY LABOR

BLOOMINGTON, Ill., Sept. 14.—Frank Comerford, of Chicago, tonight delivered before a large audience here, the speech he was to have delivered on Labor Day, but which he declined to deliver when the local committee attempted to tell him what must not be said. The Machinists' Union after learning of the action of the committee invited Mr. Comerford to return and deliver his speech. He was given an enthusiastic greeting tonight. He prefaced his speech with an explanation of his differences with the labor day committee and his explanation was frequently punctuated with applause. Despite the fact that he severely arraigned the labor day committee for its attitude there was no attempt at disorder and at the close of his address he was given a great ovation.

COMERFORD'S SPEECH IN PART

Mr. Comerford spoke in part as follows.

"I came to Bloomington on Labor Day to speak to you as a friend. A committee of your enemies drove me from the city. My crime was that I insisted that organized labor is loyal to the flag."

"I come back to you tonight as the friend of your cause. The time has come to call the roll and lash from the temple of loyal labor the false counsellors who urge you to pull down your country's flag, telling you that your opportunity is here to hoist the union card in its place, your flag and the union card are inseparable. If the flag falls in this great struggle you can tear up your union cards—freedom will not only be lost to the Union Workers of the nation but it will be gone from the nation itself."

"Beware of the speech of Wilhelm Strasse. It is being whispered in the land. It seeks to awaken our prejudices, to divide us to open healed wounds, to array class against class. In its cunning this criminal and efficient German-junker propaganda knows that an America united will furnish the winding sheet for autocracy, will bring to the world the universal freedom and brotherhood for which the commoners of all the earth have been toiling and struggling thru the centuries."

Effort to Divide is Conspiracy.
"The effort to divide you is a conspiracy to destroy you. We must destroy the effort designed to destroy us if we are to be saved."

"It is hard for me to believe that your misrepresentatives who are against the flag and pretend to be for the union card, know where they are leading you. By their conduct they are causing public opinion to suspect organized labor of treason. It is a base slander and you are being made the victims. If the public opinion of America could be forced to the belief that organized labor is waiting in ambush to desert the flag in this high time of nation's peril, the labor movement would not recover from the blow for centuries. It would set back labor movement a thousand years. Not until the last memory of the treason had died could the cause of organized labor raise its head in this country. Those who seek to separate you from the flag are leading you to this disaster."

"Be on the lookout. Mark the man who preaches dissent at this time. Follow the patriots in your movement. Gompers, Walker, Mitchell, Fitzpatrick and a host of others, who are fighting in your name and for you against the pernicious and vicious un-American propaganda in this country."

False Leaders in All Movements.
"False leaders are found in every movement. A Judas betrayed Jesus with a kiss. A Benedict Arnold America with a smile. Men have led you into strikes and impoverished you and then sold you out for their own price. The same stripe of hypocrite is abroad in the labor movement today. His ambition is to bring unrest, to provoke strife, to create strikes. He is trying to steal your heart from the country's cause."

"I hear him telling you that this is a capitalist's war just as your committee told me that it was a capitalist war. I hear him tell you that the union of the United States soldier has faced you in strikes. I hear him telling you that conscription is to put you in the ranks of the army and take you from the industrial firing line. This is the propaganda. It has the black accent of military despotism whose agents are peddling it in this country."

"But, did American capitalists violate the neutrality of Belgium or was it the great guns of the kaiser that reduced Liege? Did American capitalists sink the Lusitania, merchant ship?"

A serious situation exists throughout our whole country, and we are having even more than our share of it in Illinois. Witness the state of affairs in our capital city.

Many high schools have adopted military training as a part of their school curriculum. It might be a good plan to make this general. A sort of condensed athletic training.

The president has decided that "conscientious scruples" against fighting do not disqualify a man from road building or digging trenches.

D. A. Brooks of Carlyle, Ill., president of the Southern Illinois Milk Producers' association, says they do not fear a federal investigation and the government could not make them produce milk. Perhaps by the time Mr. Hoover gets through with them he may change his mind.

Drastic action was taken by the senate when it passed the trading-with-the-enemy bill, without a dissenting vote, amending it at the last minute to deal a blow at German language newspapers encouraging opposition to the war. The amendment would compel all German language newspapers, when publishing criticisms of the conduct of the war or the international policy, to print in a parallel column a correct and true translation in English.

The Western Newspaper Union has purchased the entire plate business and plants of the American Press association in New York and sixteen other cities. The Western Newspaper Union will continue to maintain its thirty-two branch offices and also will take over the branches of the American Press association. The sale takes effect September 15.

A NEW ENGINEERING TRIUMPH.

Secretary Baker can be pardoned for the enthusiasm with which he reveals to the American people the secret of the "liberty motor," the tried, tested and efficient machine which is to furnish the driving power for Uncle Sam's great flock of airplanes. It was almost a romance, the designing and making of this engine. The best engineering brains in the country planned it. Its parts were made in seven different states, and that, when brought together, they fitted perfectly is a tribute to American mechanical construction and precision. Presumably the new motor has the reliability which will obviate those sudden stops so dangerous for airmen, of which some of the British machines are guilty, and will have the speed and power necessary to rival or excel the famous Hawker-Fokkers of Germany.

ENTER OATMEAL.

Oats were popularly alleged to make great men in Scotland and great horses in England. If oats are the only ingredient necessary, the supply of great men and great horses in this country should be large. There is no doubt of a record-breaking figure on the yield in this country. Just where the top claim per acre yield will land is not known. Out in Iowa they claim 100 to 120 bushels to the acre. Canada has caught the infection and a record yield is anticipated. It is possible that the roundup on the North American continent of the grain that is of wonderful nutritive value for man and animals will reach 2,000,000,000 bushels. This should allow oatmeal for all. Properly smothered in cream it affords an altogether satisfactory breakfast. Porridge can readily enough be substituted for bacon which has escaped the clutches of the man of moderate means.

WHAT CARRYING YOUR OWN BUNDLES WILL MEAN.

A writer in the October Woman's Home Companion says:

"The government is asking, too, through the Woman's Committee, that we effect at once a reform of our retail shop deliveries. It has been proved beyond question that we could release fully one hundred thousand men and millions of dollars' worth of equipment if we could reform the wasteful delivery system. Women must be taught the necessity of planning fully what they need for the day, and of making one order covering that day. The delivery of groceries in this country costs fully seventy-five million dollars a year. By a scientific system this great sum could be cut easily fifty per cent; but this cannot be effected without the cooperation of women. Their slogan ought to be, 'Order once a day, carry every package you can, and do it for your country's sake.'"

"This re-adjustment of our life until it is on a thoroughly scientific basis must go forward through the war. It will be one of the ways in which women will carry out what will be, after all, their greatest service, and that is in keeping the communities in a wholesome state. Every institution, commercial, educational, social, moral, must be kept alive, and as nearly as possible up to par."

SUCH A LITTLE SHIP!

Argentina has given Count Luxemburg his passports and will ask the German government to explain the notes Secretary Lansing published. This action will naturally cause the German representative, the German government and a large section of the hoodwinked German people a pained surprise.

"They were such little ships that I recommended to be sunk, with the murder of all on board," Count Luxemburg will doubtless murmur plaintively. "So small that a submarine commander could hardly be expected

to get any real pleasure out of sinking them. Such little ships, so few people on board to be murdered in order to stop disagreeable discussion! And here the Argentine government is actually kicking up a fuss over it and packing me out of the country."

This is a mad, bad world outside of Germany, from the German official viewpoint. Belgium was such a little country, and yet the whole kicked up a row over its spoliation. The babies killed on the British coast were such little things, and yet the act imparted a special bitterness to the British soldiers in the trenches. The treaty guaranteeing Belgium was such a little document, and yet see how excited people got about it. And now this latest exhibition of failure to appreciate the German viewpoint. No wonder Kultur gets peevish at times.—Chicago Herald.

HARDWICK'S RESOLUTION.

The action of the United States senate in promptly squelching the resolution of Senator Hardwick, asking that the consent of the drafted be obtained before they are required to serve outside the country, is just and well merited.

This resolution might have been in order at a time less perilous, but right now, when the country is facing the most serious crisis of its existence, the resolution is as much out of order as a direct plea for mercy to the kaiser.

Senator Hardwick might be asked now to take a rear seat along with Senators Reed, Stone and W. E. Mason. They are in the list of has-beens who have committed political suicide.

CORN ALL GONE.

Old corn will nearly all be gone by the time new corn is ready for feed. Wherever one looks in the corn states cribs are empty. Few farmers were foolish enough to hold corn for further speculation when distillers began their final drive to work as much corn as possible into whiskey before government orders shut down the stills. That insistent demand resulted in corn prices far above figures proportioned to other grain prices. Farmers saw the point and unloaded all the corn they could spare, says the Breeders Gazette.

The government has made an investigation in Illinois, Ohio, Kentucky and Missouri, which are typical corn-producing states. It shows that there is no surplus of corn left on farms for sale. The amount of corn in cribs last March was 300,000,000 bushels short of the stock of the year before. But exports of corn have been larger. For the year ending June 30, 1917, about 70 per cent more corn was exported than in the preceding year, and about seven times as much as for the year ending June 30, 1914, the year before the war. More corn has also probably been used for feed because live stock in the United States has increased about 3,000,000 head in the last three years.

These are additional factors boosting the price of corn and keeping it up now to a high level as compared with wheat, and with oats, which are not so universally used for feed. Every one is reduced to the same basis of immediate dependence upon new corn for all sorts of uses. It means that the earliest new corn that can be marketed will undoubtedly be in strong demand.

SOLDIERS TO HAVE PLENTY OF BOOKS.

Wherever the soldiers of America may go in this war, a complete library will follow them. For every transport ship that carries United States troops across the sea will carry, in addition to immense stocks of food, a stock of books.

One of the lessons that Uncle Sam has learned from England is that soldiers in a foreign land find literature just as necessary to their well being as if they were sitting by their firesides at home. When the British army was sent to France the British government made no provision for books for the soldiers and they found themselves in a foreign land, unable to understand the language or read the literature. The few books that crossed the English channel were in the soldiers' luggage, perhaps a Bible and a book of favorite poems. To prevent such a condition in the American army, Secretary of War Baker has appointed a library war council, to see that the United States boys are provided with library reading facilities.

The week of September 24-25 is to be observed throughout the United States as Soldiers' Book Fund week.

A fund of a million dollars will be collected, the money to be used to render expert book service to the soldiers in the army training camps, at the front and in the hospitals. In army camps there will be a library headquarters building, under the supervision of a trained librarian. Books from this building will be distributed to the various Y. M. C. A. tents in the camp. Citizens of Jacksonville have been liberal in their offerings of good books and may be relied on to do its part as it has in every work for the benefit of our boys in khaki.

NOT A WAR PROFITS TAX.

The text of the war revenue bill, as it passed the senate, reveals that it no longer provides what might be properly styled war profits taxation. It really levies a combination of an individual graduated income tax, a direct corporation tax and a graduated tax on corporation earnings. The levied without regard to source, so that stockholders in corporations will be doubly taxed. All corporations must pay a straight tax of 6 per cent on net earnings. All whose net revenue exceeds \$5000 a year are subject to an additional graduated tax. There is a minimum exemption of 6 per cent. All corporations which made a profit of over 6 per cent for the average of the years 1911, 1912 and 1913 are allowed that as an exemption until 10 per cent is reached. All earnings above 10 per cent are subject to the additional tax, whether greater or less than during the pre-war period.

The measure is not defended on grounds of equity but solely on the

ground that it will meet the increased demand for revenue. That it will bear unjustly on the conservatively capitalized concerns, which have been made prosperous by proper management, is conceded, says the Globe-Democrat. Concerns which have actually been hurt by the war will be compelled to pay the graduated tax, provided their percentage of profit on actual investment is still in excess of 10 per cent. The rates range from 12 per cent on the first 15 per cent excess over the exempted "pre-war" profit to 50 per cent on a 300 per cent excess. The process of calculation is the same complex one used in computing surtaxes on individual incomes. But this is merely a matter of arithmetic. The greater difficulty will be found in ascertaining the actual investment. The corporation makes its own report, but it is subject to review by the treasury department. A strictly war profits tax would have avoided this by merely levying on net earnings in excess of those received in the pre-war period, the percentage of profit on investment being immaterial.

The measure will doubtless be a painful surprise to successful businesses that have not shared in "war prosperity." Even a thriving publisher of pacifist tracts will be affected as much as munition makers.

BACK HOME.

From mountain and from sea resort the tourists are returning, and they have freckles by the quart, and sunburn fiercely burning. No doubt you gamboled with the rest, where sylvan torrent gushes, where little cabins build the nest, and sparrows chase the thrushes. No doubt you're full of thrilling yarns, that you desire to tell us, of ocean waves or mountain tarns—which tales will make us jealous. But have you brought back nothing more than rather idle stories of basking by the briny's shore, or 'mid the forest's glories? Have you brought back a lot of pep for your employer's service, or have you still a lagging step, and are you stale and nervous? Have you brought back new vim and zeal, from all your rural scouting? Unless you have, I surely feel, you've had a useless outing. Have you brought back a glad desire to quit your lazy nodding, and labor like a house afire, and set the boss applauding? If you still hunt the easy chair in which we've oft surveyed you, your tan won't get you anywhere, your freckles will not aid you.

THIS DATE IN HISTORY

September 15, 1849—The steamer "Anthony Wayne" is one of the fastest boats running on the Illinois river. On her last trip to Naples she passed four boats under full headway, one of which was a "crack" boat of the West. Her captain Mr. Morrison, is a cautious and skillful commander, and, as for her clerk, Mr. Able, (son of the old representative from Alexander), he is the best specimen of a native sucker we ever chanced to meet, and as clever as the day is long. Our citizens in this section of the country are interested in having these boats sustained.

A PECULIAR ELECTION.

A day or two ago there were two nominations to be made by residents of Arenville but everybody, almost, forgot all about it. The Democrats should have chosen one and the Republicans one but it came very near going by default. Finally, as a sort of joke one man voted for Henry Bridgman, Republican, and one man voted for J. H. Nieman, Democrat, so both are assured of election as there are two to be chosen and while neither cared for the office they both say they will qualify.

CHAPIN PEOPLE READY FOR RED CROSS WORK

Branch Organized at Enthusiastic Meeting Friday Night—Officers and Directors Named.

A Red Cross branch was organized at Chapin Friday night and the interest of the people in that locality was indicated by the large attendance. The meeting was held at the Christian church and there were at least seventy five in the company, over which Rev. L. Hadaway presided. The party of Jacksonville workers that went down to present the cause included Mr. and Mrs. E. E. Crabtree, Rev. and Mrs. W. E. Spooner, Mrs. C. A. Barnes, Miss Katherine Barr and T. M. Tomlinson. Addresses by way of explanation were made by Mr. Crabtree and Rev. Mr. Spooner, and while a committee appointed was busy discussing nominations, the women in the party gave some suggestions about knitting. As a result of the committee report and the unanimous action of the assemblage, the following officers and directors were chosen:

General chairman—G. A. Allen.
Vice chairman—Mrs. F. P. McKinney.
Secretary—Mrs. W. W. Anderson.
Treasurer—T. U. Markham.
Organization chairman—Rev. L. Hadaway.

Executive committee—W. N. Bobbitt, Mrs. H. Tucker, John Eiler, Elmer Siddles, Charles Drake, H. O. Smith, Mrs. Fred Eiler.

Board of directors—G. H. Coulson, Owen Hamilton, Herman Engelbrecht, Jr., Alfred Anderson, Albert Unken, T. R. Mathers, Alvin Schumacher, Mrs. Henry Eckhoff, Martin Ommen, J. M. Fox, T. H. Pratt, M. H. Hanks, Truman Cowdin, Wilbur Williams, Mrs. Jas. Guinane, T. H. Stone, Clyde Williams, W. Woodward, Rev. Herbert, Mrs. B. J. Taylor, R. D. Omer, Dr. L. Smith, Dr. F. M. Roberts, Mrs. John Eiler, Dr. J. H. Fountain, Mrs. E. Neiheiser.

The people of the Chapin neighborhood have already indicated their interest in Red Cross work by the large number of memberships secured and at the conference last night this spirit and enthusiasm was the more apparent. The officers and committees will busy themselves at once in the work of the branch and an enlarged membership and increased interest are both anticipated.

MATRIMONIAL

Braner-Christman.

The following account of the marriage of Mr. Vernon Braner and Miss Christman was sent to the Journal yesterday and gives further details of the wedding than previously printed:

No doubt the many friends will be surprised to learn of the marriage of Vernon Devore Braner and Miss Georgia Ann Christman, which took place at the home of the bride Thursday, Sept. 13th. Just as the clock struck twelve the bride and groom took their place beneath a canopy of pink and white from which was suspended a white bell. The Rev. Cantrell of Concord said the words which made the twain one. The ring ceremony was used and was both impressive and beautiful.

The bride wore a beautiful taupe colored traveling suit with corsage bouquet of pink and white carnations. The groom also wore a traveling suit of dark. After the ceremony hearty congratulations were extended after which the bride and groom led the way to the dining room where a sumptuous dinner was served by the sisters of the bride, Mrs. Maud Brenson and Mrs. Luella Carter.

Amid showers of rice Mr. and Mrs. Braner left Riggs on the south bound passenger for St. Louis. After spending a time there they will return to Concord and then will go to McAllen, Texas, where they will make their future home.

Miss Christman is the youngest daughter of Mr. and Mrs. E. M. Christman of near Merritt and is loved and respected by all who know her. Mr. Braner is the only son of Philip Braner of Jacksonville, but on account of the death of his mother when a mere babe he has been reared in the home of Mr. and Mrs. G. R. Wooff of Concord and he has a wide circle of friends.

There were present at the wedding only the immediate family and Mr. and Mrs. S. J. Coultas and family, Mrs. Harry Rudkin, all of Merritt; Mr. and Mrs. G. R. Wooff and Mrs. Ethelyn Plank of Concord.

Hayden-Bogue.
Oren Glen Hayden of Industry and Miss Freida Bogue of Vermont were united in marriage at 10:30 o'clock Friday morning by the Rev. R. B. Wilson at his residence, 707 West State street. The groom is a farmer and they will reside in Industry.

J. HERMAN RETURNS FROM THE EAST.

J. Herman has returned from an extended tour of the eastern cities seeking the choicest and best in millinery and ready to wear for the ladies of Jacksonville and vicinity. While in New York he was entertained by his brother, Dr. Herman, and other friends and relatives of whom he has many in the great metropolis. He says soldiers prevail on all sides and are scattered all about the city. All are fine looking men and worthy of the land which they call their own. While at Far Rockaway, a suburb of New York, he saw 20,000 men at drill and says it was a grand sight.

MORTUARY

Wagstaff

Farwell Wagstaff, for nearly a half century a resident of Morgan county died at Passavant hospital Friday morning at 11:30 o'clock following an operation for appendicitis. Mr. Wagstaff was seized suddenly and the operation showed that the disease had advanced to such a stage that the appendix was ruptured. Owing to this and his advanced age but little hope was held out for his recovery.

Deceased was born in Sheffield, England, April 16, 1835 and came to this country 47 years ago last July. He first settled on a farm six miles west of Jacksonville. A few years afterward he removed to a farm three and one half miles south of Murrayville which has since been his home.

He was united in marriage in England about 55 years ago to Mary Ann Ibbison. To this union twelve children were born. Six of them preceded him in death. His wife died 13 years ago. The surviving children are: Robert Wagstaff and Virden Wagstaff of Murrayville and Mrs. Agnes Greenwalt of Manchester all of whom were born in England. Charles Wagstaff of Murrayville, Mrs. Lucy Paterson of Winchester, Mrs. Anne Walker of Manchester.

While living in England Mr. Wagstaff followed the occupation of mining. Tho he farmed practically all of the time since he has lived in this country, yet for a time about twenty years ago he opened a coal mine on his farm south of Murrayville which he operated with success for a number of years.

Mr. Wagstaff never united with any church. However, he was a man of strict integrity and was one who won and held the respect of the community in which he lived for so many years. He was a man of great industry and only retired from active life a few years ago. Since that time he has made his home with his grand daughter, Mrs. Carl Bacon, on the old home place and she has given him every care in his declining years. J. E. Thompson, the undertaker from Murrayville, came up to the city Friday and removed the remains to Murrayville. The time of the funeral will be announced later.

THEN AND NOW.

Norman Baptist has returned from North Dakota where he has been working in the harvest field for a number of weeks. His employer had

2,000 acres in small grain and the yield was quite good from oats, rye, wheat and barley. Mr. Baptist said that in this case the man ran a large number of ordinary self binders and made rapid work of saving the crop.

The price paid for help was \$3 to \$4 a day and the writer could not help comparing conditions when he worked in the harvest field with those of the present time. Before the war the writer was employed as a farm laborer and received the magnificent sum of \$12 a month, losing the rainy days, while transient work in the harvest field was paid for at 75c a day. At that rate the writer has many a day bound four acres of reasonably good wheat, working from sunrise to sunset and often later. What the ordinary individual needs would cost then about one-half on the average of what it costs now. Clothing was rather higher, meat, eggs, rents, flour were cheaper, groceries about the same. Hardware, tools and implements were higher. So upon the whole it will be seen that the laborer of today is better off than his grandparents were before the war.

STRIKES IN SHIPYARDS CAUSE SERIOUS CONCERN

Present Most Serious Trouble Shipping Board is Facing

Representatives of Employers and Employees are in Washington from Seattle—Delegation Comes from New York to Take Up Situation.

BULLETIN

PORTLAND, Ore., Sept. 14.—After deliberating in mass meeting for several hours, organized employees of wooden shipbuilding yards, voted at midnight to strike tomorrow morning. More than 2,500 men at eleven shipyards where 100 vessels are on the ways are concerned.

Washington, Sept. 14.—The labor situation in ship-building plants is giving the shipping board serious concern. A threatened walkout of iron trade workers at San Francisco and strikes at Seattle and New York present the most serious difficulties the board is facing at the moment. Representatives of both employers and employees are here from Seattle and a New York delegation came today to take up the situation in New York repair yards. The Seattle steel ship yard workers demand a 33 per cent wage increase. If this were granted and served as a basis for increase elsewhere there would be added to the cost of the government's shipbuilding program more than \$200,000,000.

San Francisco shipyard workers have been asked to postpone action until the shipping board has had an opportunity to take up their case.

Consider Sympathetic Strike

Seattle Wash., Sept. 14.—Members of the metal trades council announced tonight that they were considering holding a meeting immediately to discuss possibility of calling a strike among metal workers in the shipyards in sympathy with a walkout of shipwrights joiners, ship caulkers and ship carpenters affiliated with the Building Trades Council.

This move, it was asserted, would tie up three steel ship yards now in operation and affect more than 15,000 men.

Three of Seattle's wooden shipbuilding plants ceased operation today as a result of the walkout of wood workers who struck to assist the lumber workers and shingle weavers in obtaining an eight hour day.

HERBERT HOOVER DENIES REPORTS

States Government is Not Contemplating Requisitioning Wheat On Farms to Keep Flour Mills Going.

Washington, Sept. 14.—Reports that the government is contemplating requisitioning wheat on the farms to keep flour mills going were denied tonight by Herbert Hoover, the food administrator. Mills generally, Mr. Hoover said, are running on full time, although some are handicapped by shortage of grain.

Food administration officials expect wheat to begin to move freely within a short time. Except in limited areas where anti-war and pro-German propaganda is carried on there has been no disposition by farmers, Mr. Hoover said, to withhold wheat from the market. Withholding, it is declared, will have no effect on prices the government will maintain in its purchases.

Wheat stocks ran shorter this year than in any period before. At the time the new crop began to come on the market there was scarcely any wheat in the country. If shipments to the European neutrals had not been stopped it is said the shortage would have forced some mills to close.

Reports to the food administration indicate a greatly enlarged planting of wheat this fall. Farmers are so busy planting in some regions they have not had time, it is declared, to take their wheat to market.

The food administration authorized a statement tonight that it had not in any instance given permission for food manufacturers to claim their products have been given the approval of the administration. On the contrary, it was said, manufacturers guilty of the practice will be served with injunctions unless it is stopped.

SWEDEN TO REFORM ITS FOREIGN OFFICE

STOCKHOLM, Sept. 13.—Delayed.—The Swedish government has decided to take steps to reform conditions in the foreign office. This follows a series of cabinet meetings, conferences of officials with the king and conversations with Ira Nelson Morris, the American minister and the entente ministers.

Asks for Explanation. Stockholm, Thursday, Sept. 13.—Delayed.—The French minister to Sweden called today at the foreign office to request an explanation of the cable despatches sent by the German minister to Argentina thru the Swedish legation.

GIVES STATEMENT OF STRENGTH OF COUNTRY

WASHINGTON, Sept. 14.—In the belief that the country does not understand the real strength of the American military and naval forces, Chairman Dent, of the house military committee, today submitted to the public a statement prepared at his request, by the committee on public information, from government records.

"On September 6, 1917," the statement says, "there were in the regular army, national guard, and reserve corps of the army 78,828 officers and 741,053 enlisted men. In the navy there were 141,687 enlisted men, 411,473 naval reserves and 14,500 of the naval militia in the federal service. There were 5,000 men in the coast guard and 6,500 in the hospital corps making a total of 209,340. Enlisted strength of the Marine Corps was 29,971; reserves in the service 1,070; national naval volunteers 704; retired men on active duty fourteen. There were approximately 12,000 officers in the navy and 1,166 in the marine corps.

"In other words, on that date, the army had including officers and enlisted men, 819,881 and navy 254,265, making a total armed strength on that date of 1,074,146 men, all of whom were volunteers. Prior to that time, there was not a drafted soldier in a single training camp. The draft law was approved May 18, 1917."

WAR NEWS SUMMARIZED

The crest of Monte San Gabriele, commanding the plain of Gorizia, south and southeast and the Frigido valley east, has been captured by the Italians after three weeks of bitter fighting, the Italian embassy at Washington announces.

This victory probably is the greatest feat of the Italians arms thus far in the war.

The Italian effort to capture San Gabriele began after the taking of Monte Santo directly north by General Cadorna's troops on Aug. 25. Several times the Italians had reached the summit of the mountain so important to their further progress as Gorizia as well as on the Carso only to be beaten back again. On the slopes in the last few weeks has occurred some of the heaviest and most sanguinary fighting of the war, with the Italians hurling themselves forward desperately, the Austrians holding to the crest.

San Gabriele's top was occupied by the Italians after the fortified hill or saddle of Dol and the Gargaro basin, the main bulk of San Gabriele had been taken. The Austrians however, still cling to some positions on the mountain. In the forest of Tarnovo, east of Monte San Gabriele, the Italians captured positions held by the Austrians after suffering heavy losses.

Except along the Casemates plateau on the Aisne front, there has been no marked activity on the other fighting fronts. A German attack against French positions on the Casemates plateau, Paris says was repulsed with heavy losses. Berlin says German troops penetrated to the second French line and inflicted severe casualties. The British artillery fire in Flanders, Berlin reports, has increased to drumfire.

The political situation in Russia still is somewhat clouded. The revolt of General Korniloff apparently has failed but he surrendered to the provisional government. General Kymoff, commander of the Korniloff forces sent against Petrograd, committed suicide by shooting when informed by Premier Kerensky of his probable fate.

Premier Kerensky has begun to reconstruct the government, some of his former ministers apparently opposing the taking of drastic measures against General Korniloff and his aides.

TRANSFER NETHERLANDS MINISTER TO EUROPE

WASHINGTON, Sept. 14.—The Netherlands minister to the United States, Chevalier W. L. F. C. Van Rappard, has been transferred by his government to a European post and today he called upon Secretary Lansing to announce the fact and ask if Mr. VanRoyen, named to succeed him will be acceptable. Mr. Van Royen was formerly secretary of legation here. He married Miss Winthrop of Boston. Chevalier VanRappard said failure of his endeavors to obtain a release of foodstuffs for shipment to Holland had nothing to do with his recall.

CENTRAL POWERS REPLY TO POPE'S PEACE NOTE

Regard Proposals Suitable Basis for Negotiations

Emphasis is Laid on Condition That Allies Must Give Serious Evidence of Desire for Peace by Joint and Benevolent Discussions of Questions.

Amsterdam, Sept. 14.—The reply of the Central Powers to the peace note of Pope Benedict says a Vienna despatch to the Tied begins by declaring that they regard the papal proposals as a suitable basis for peace negotiations.

Regarding the exchange of occupied territories, arbitration, disarmament and similar principles declarations are made, the despatch adds, which testify to the idealism of the Central Powers and their sincere desire for a peace which will insure happiness to all nations.

Conciliatory declarations also are made respecting the settlement of the Balkan question, Poland, and the restoration of Belgium, but emphasis is laid on the condition that the allied powers must also give serious evidence of a desire for peace by a joint and benevolent discussion of questions which now separate the nations. The reply, it is said, will be published as soon as the consent of the papal nuncio at Vienna is obtained.

URGE FARMERS TO GO AHEAD WITH PLANS

State Food Administrator Gives Assurance of Labor is Sufficient Quantity to Sow and Harvest Crops.

Chicago, Sept. 14.—Illinois farmers are urged to go ahead with plans for a bumper 1918 yield with the assurance that labor will be found in sufficient quantity to sow and harvest the crops, it was announced by Harry A. Wheeler, state food administrator, today. Fears of Illinois farmers that the draft of help and the lure of big industries would strip their farms of help until it would be necessary to "seed down" their lands to grass led to the announcement.

Chicago is to be made the center of the labor supply, Wheeler said. Every other city in the state will be organized to classify and furnish available labor for spring, summer and fall work, so that the distribution of the labor will be even and adequate. Retired farmers, men who have been raised on farms, foreigners who know European farming methods, city and town people who want to get on farms, and high school boys are to be mobilized in the Illinois plan to raise the biggest crops ever gathered in the state.

In the training of the high school boys a new idea in vocational education may be put into practice, educators here say. With the cooperation of the leading manufacturers of farm machinery, high school boys may take a course in farm mechanics at certain laboratory periods each week. Besides learning how to harness horses, the setting up and care of farm machinery, the running of gasoline engines and tractors, and other farm engineering problems are to be taught before the boys are sent to the farm next spring. Older men will receive night work along similar lines.

In those twenty-six counties where advisers are located the exemption plan worked out in Kankakee county is recommended. Farmers are in order to keep every young farmer and farm hand needed to carry on the farm program of those counties. County Advisor Collier of Kankakee asked from 15 to 20 leading farmers in each township of his county to recommend one landowner who was the head of a family and held the confidence of the community. These township committees gathered at the county seat to form a Board of Judges to pass on the exemptions and recommend those to be granted. Each exemption claim was examined by the men from the township in which it arose. The board then met the second time with the facts on each case in the county. This resulted in fairness to all with the draft on labor put where it could best be spared by the farmers.

TO CHECK EXPORT OF COAL TO CANADA

WASHINGTON, Sept. 14.—Continued export of coal to Canada in large amount thru Great Lakes ports at the expense of the northwestern states will be checked immediately. Dr. H. A. Garfield, fuel administrator, today requested the export administrative board to permit no more coal to be shipped out of the country except under license restrictions approved by the fuel administrator.

"The fuel administration," said Dr. Garfield tonight, "does not intend to cut off Canadian exports but with this supervision it will be able to equalize the distribution of coal and see that the northwest and Canada both have their fair shares."

PREDICT GENERAL TIEUP OF DANVILLE CAR LINES

DANVILLE, Ill., Sept. 14.—Following a demand for an increase of seven and one half cents an hour and recognition of a new union being formed, the "owl cars" of the Danville Street Railway and Light company were run into the barns at midnight, and the strikers claimed there would be a general tieup of the lines in the morning. Men at the car barns also walked out at midnight and power house employees will, it is reported refuse to go to work when the night shift quits. Superintendent J. E. Johnson at 1:45 a. m. stated he had informed the men the company would recognize their union and had asked them to defer action until a higher authority could be consulted on the wage question, but the committee of employees refused to give the company further time and ordered the strike at midnight.

CONFIRM REPORT OF SINKING OF LINER

NEW YORK, Sept. 14.—Confirmation of the destruction by a German submarine of the big Atlantic Transport Liner Minnehaha, with a loss of life, was received by the line today from its offices in England. The cable message said that 43 members of the crew perished and 110 were saved.

Chief Officer Albany, C. A. Willis, purser; Dr. J. E. Barrett, surgeon; three other officers and three engineers were among those who lost their lives. Captain Frank Claret, the Minnehaha's commander, and First Officer Pearce were saved.

The cable message did not contain the date or circumstances of the sinking. Unofficial reports of her loss which became known Wednesday said the Minnehaha was sunk a week ago today, a short distance off the coast of Ireland. She was struck it was said, near the engine room on the starboard side the explosion killing a number of the crew outright. Others were reported to have been drowned in getting away in boats.

The Minnehaha was returning to this port after having delivered a huge cargo of munitions in England.

COMERFOR DSPEAKS IN BLOOMINGTON

(Continued from Page 1.)

lessly murdering 1,198 human beings, 102 of whom were Americans? Or was it the order of the kaiser to the U-boat commanders that sent women and children to the bottom of the Atlantic? No one asked whether the men, women and children who were murdered by the kaiser's command were working people or capitalists. Two things were enough to know: first, that they were Americans, and second, that they had been murdered at the order of the German government.

Germany Professed Friendship. "We struggled to help Mexico. We were patient. We wanted peace for ourselves, and we knew that peace was necessary to the welfare of Mexico. Germany was professing friendship for us and yet spies were at work trying to force us into a war with Mexico. Zimmermann, the head of the German foreign office, sent an official German note to Carranza, urging him to make war on the United States and promising the full punch of the Prussian mailed fist as an ally. Did capitalists in America dictate the Zimmermann note?"

"President Wilson has been the greatest peace figure in the world's history. Some have even questioned his courage because of his devotion to peace. It was the president, the great patriot pacifist, who went to congress and made known to the world that we no longer could have peace that Germany had forced beligerency on us.

Commend Young Americans. "Did American capitalists design this war to send their own sons to slaughter? In justice to these young American we must commend the way in which they have gone to the colors; they are entitled to no more credit than the young man in overalls, but surely they are entitled to as much. Read the list of the men in the aviation corps, in the navy and in the army and you will find young men from every walk in life, rich and poor preferring to fight side by side, and calling each other 'comrades'.

"Capital has sinned against labor but his war is not of capital making. It is the plot and plan of the mad ambition of a Hohenzollern to rule the world. "We were for peace, but not at any price. We had a choice to submit to slavery or to fight. Thank God, we chose to fight. So say your hearts, I know it. The thing that holds you together in the labor union movement is your love of freedom."

GERMANY TO RECALL MINISTER TO ARGENTINA

AMSTERDAM, Sept. 14.—Dr. Von Kuehlmann, the German foreign minister has requested the Argentine legation at Berlin to communicate telegraphically a request to Count Luxburg, the German minister in Argentina to come to Berlin in order personally to report according to advice received here from Berlin.

The Argentine government also has been asked to secure a safe passage for Count Luxburg.

WAR DEPARTMENT APPOINTS ATTERBURY

Washington, Sept. 14.—Appointment of W. W. Atterbury, vice president of the Pennsylvania railroad as director general of transportation of the United States expeditionary force in France was announced tonight by the war department.

Mr. Atterbury already is in France had in active charge of all railways, docks and highways under General Pershing.

KORNILOFF HAS NOT SURRENDERED

Petrograd, Sept. 14.—The Associated Press is officially informed that General Korniloff has not yet surrendered. Still faithful to him are some of the "striking battalions" and also a considerable number of detachments of Tekke Turcomans.

LANGFORD OUTPOINTS JEANNETTE

Toledo, O., Sept. 14.—Sam Langford of Boston outpointed and out-fought Joe Jeannette of Hoboken, N. J., in a 12-round bout here tonight. They are negro heavyweights. It was the fifteenth time they had met.

ever stand as one of the great state papers of modern times.

"The decision was made by overwhelming majorities of both houses of congress. When such a decision has been made the duties—and therefore the rights—of all the people of the country immediately change. It becomes their duty to stop discussion and do everything in their power to enable the government to succeed in the war.

"A nation which declares war and goes on discussing whether it ought to have declared war or not is impotent, paralyzed, imbecile and earns the contempt of mankind, and the certainty of humiliating defeat and subjection to foreign control. A Democracy which cannot accept its own decisions, made in accordance with its own laws, but must keep on endlessly discussing the question already decided has failed in the fundamental requirements of self-government; and if the decision is to make war the failure to exhibit capacity for self-government by action will invariably result in the loss of the right of self-government.

Rendering Service to Teutons. "The men who are speaking and writing and printing arguments against the war now, and against everything that is being done to carry on the war are rendering more effective service to Germany than they could render in the fields with arms in their hands. The purpose and effect of what they are doing is so plain that it is impossible to resist the conclusion that the greater part of them are at heart traitors to the United States and wilfully seeking to bring about the triumph of Germany.

"Any attempt to discourage volunteering or to oppose conscription is an attempt to hinder and embarrass the government in its efforts to win the conduct of the war and to help Germany by preventing our government from raising armies to fight against her.

"It is beyond doubt that many of the professed pacifists, the opponents of the war after the war has been entered upon, the men who are trying to stir up resistance to the draft, the men who are inciting strikes in the particular branches of production which are necessary for the supply of arms and munitions of war, are intentionally seeking to aid Germany and defeat the United States. There are some born abroad who have come to this land for greater freedom and broader opportunities and have sought and received the privileges of American citizenship.

Forfeit Citizenship Rights. "All these naturalized citizens who are taking part in this obstruction to the government in the conduct of the war are forfeiting their rights of citizenship, are repudiating their honorable obligations, are acquiescing by evil the good that has been done them in the generous and unstinted hospitality with which the people of the United States have welcomed them to the liberty and the opportunities of this free land. We must believe that in many cases this is done because of failure to understand what this war really is.

"This is a war of defense. The national defense demands not merely force, but intelligence. By entering this war the United States availed itself of the very last opportunity to defend itself against subjection to German power before it was too late to defend itself successfully."

Outlines Ante-War Conditions

Mr. Root outlined conditions previous to the war and continued: "From 1914 until the present in a war waged by Germany with a revolting barbarity unequalled since the conquests of Genghis Khan, Germany has violated every rule agreed upon by civilized nations in modern times to mitigate the barbarities of war to protect the rights of non-combatants and neutrals.

"Why are these things done by Germany? The answer rests upon the accumulated evidence of German acts and German words so conclusively that no pretense can cover it, no sophistry can disguise it. The answer is that this war was begun and these crimes against humanity were done because Germany was pursuing hereditary policy of the Hohenzollerns and following the instincts of the arrogant military caste which rules Prussia, to grasp the overlordship of the civilized world and establish an empire in which she should play the part of ancient Rome."

Mr. Root concluded as follows:

Struggle Between Two Principles. "This is no ordinary war which the world is waging. It is a mighty and all-embracing struggle between two conflicting principles of human right and human duty. It is a conflict between the divine right of kings to govern mankind thru armies and nobles and the right of the peoples of the earth who toil and endure and aspire to govern themselves by law in the freedom of individual manhood. It is the climax of the supreme struggle between autocracy and democracy.

"To this great conflict for human rights and human liberty America has committed herself. There can be no backward step. There must be either humiliating and degrading submission or glorious victory."

EVERY MEMBER CANVAS

—GRACE CHURCH
The officers of Grace church have decided on an every member canvas to be conducted tomorrow, Sunday, beginning at 1:30 p. m., when the attempt will be made to see every member of the church and congregation and see what can be subscribed toward the needs of the society. In order to facilitate this worthy enterprise, Mrs. Charles Hopper's Queen Esther class served about fifty men at a superb and enjoyable luncheon in the parlors of the church last evening and when all had been put in good humor by a feast, speech making came next. The worthy pastor, Rev. F. B. Madden, presided and informal addresses were made by district superintendent E. L. Fletcher, his predecessor Dr. A. F. McCarty and Rev. A. L. Casely of Beardstown, Mr. Madden also spoke and short talks were made by some of the laymen. A fine spirit prevailed and the work was committed to nine teams of four men each, each squad being under a captain who will see that good work is done. W. E. Hall is chairman of the finance committee and the other members are Messrs. A. T. Capps, J. R. Harker, W. C. Green, H. H. Potter, A. B. Applebee and Charles Hopper. For the home church the expense, including pastor's salary, \$2,000, are \$5,500 and for benevolences \$1,442. A statement has been sent each person to be seen and the announcement of a sermon Sunday by Dr. McCarty and a great time is anticipated for it is blessed to give to the Lord's work.

—SERGEANT HUBBS HERE.
A fine, soldierly bearing wearer of the khaki was in the city and proved to be Sergeant Lester Hubbs of the 39th Regular U. S. Army. He is in this vicinity after an absence of six years, to visit his mother, Mrs. Effie Hubbs of Ashland. He was looking also about the city to see if he could come across any one whom he knew. He said his uncle, Douglas Smith, once conducted a meat market in this place and the young man was certain the establishment was on the north side of the square some where near the room occupied by the Bergert shoe store, but in that he must be mistaken as no one can recall a meat market any where along there within six years.

Since his last visit home Mr. Hubbs' command has seen a large part of the world having trodden the frozen shores of Alaska, down to San Francisco, on down and around through the Panama canal to New York, down to the Mexican border and finally pulling up at Plattsburg, New York. He expects his command will soon be ordered away for foreign duty.

CENTENARY MEN AT BANQUET FRIDAY

Seventy Five Prepare For Every Member Canvass Soon to Begin—A Program of Addresses—New Pastor Rev. W. R. Leslie Present.

A most enthusiastic gathering of men of Centenary church was held in the church parlors Friday evening preparatory to the every member canvass which is scheduled for Sunday. Fully 75 men were present and partook of a splendid banquet served by the Queens of Avalon. This was a distinctive feature of the occasion and the young ladies received many compliments for the excellence of the repast.

One of the most important matters taken up was just at the close of the meeting. A motion was put and carried that a committee of three be appointed to arrange for a meeting of the men of Centenary to be held just before the Hanley-Fisher evangelistic meetings. This will be for the purpose of arousing interest in the meetings and to arrange for the congregation of Centenary taking an active part in the meetings.

At the close of the banquet Edward G. Saye was introduced as chairman of the evening. A presentation of the every member canvass was made by C. S. Smith chairman of the finance committee, E. L. Kinney and A. C. Metcalf. Informal discussion followed.

Then followed an informal reception during which the new pastor, Rev. W. E. Leslie was welcomed. One of the most interesting addresses during this time was given by Alex Platt one of the oldest members of the church. Mr. Platt's address was filled with humor and pathos and good solid sense and was greatly enjoyed by all.

Then followed an open meeting during which each one was given an opportunity to talk each speaker being limited as to time. About 15 members made brief addresses. During the evening Dr. F. A. McCarty and Rev. E. L. Fletcher came in and were given seats with Rev. W. R. Leslie. Both of them made splendid addresses and Rev. Mr. Leslie also made a few remarks. Mr. Leslie spoke in a most optimistic vein and made deep and favorable impression upon those who heard him.

TAKE POSSESSION
OF MEANS' APARTMENT

NEW YORK, Sept. 14.—Agents of the department of justice took possession late today of the apartment of Gaston B. Means, who was the companion of Mrs. Maude A. King, when she met death at Concord, N. C. Secret service agents announced they had found a complete telephone listening device and a revolver with a supply of cartridges.

"These papers include," assistant District Attorney Dooling asserted, "documents signed by high German officials who used to be accredited representatives in this country. Some of them deal with wire tapping in the interest of one of the belligerents, other deal with war contracts and others concern factories at which large quantities of war materials were manufactured."

District Attorney Swann said today that he had facts tending to show a motive for foul play in the case of Mrs. King.

This was said after the original of the alleged second will of James C. King, under which his widow would receive \$4,000,000 was delivered to Mr. Swann by Carl L. Schurz. Means claims to have found this will among Mrs. King's papers eleven years after her husband's death. Schurz was a third party to a contract by which Means was to receive \$550,000 from Mrs. King, if efforts to have the will probated succeeded.

Assistant District Attorney Dooling made public tonight what he said were extracts from a letter written in Concord, Aug. 25, four days before the death of Mrs. King. He declined to give the writer's name or to tell to whom the letter was addressed. One paragraph read:

"Must impress upon you that you don't hang yourself and get in this. We are not going to get into trouble. This affair of ours is coming to a crisis shortly."

FIND COPIES OF SIGNATURES
Chicago, Sept. 14.—Photographic copies of the signatures of James C. King and Byron L. Smith were found in a safety deposit box rented by Gaston B. Means, business agent of Mrs. Maude A. King, who was mysteriously killed near Concord, N. C., Aug. 29, when State's Attorney Hoyne tried the box open here today.

The following paragraph from the Drovers Journal is of special interest because it shows results from feeding cattle a mixture of corn and molasses. The load was sold by Walter Bros.

"J. H. Chenoweth of Fulton county, Ill., who last Wednesday had some cattle which sold at \$17.00, was on the market today with 49 steers averaging 1505 lbs which sold at \$17.35. These cattle were the heavy end of the stuff he bought the first of the year. They averaged about 900 lbs at the time and cost \$7.00. They were run on pasture and stalk fields until the first of February, when they were started on a ration of corn and molasses feed. This ration of corn was increased until the cattle were getting 1-3 of a bushel of corn and 4 pounds of molasses feed. The cattle were on feed approximately nine months during which time they made more than 600 lbs gain."

PUPILS WIN PRIZES AT ILLINOIS STATE FAIR

Will be Exhibited in Some Window
—Successful Pupils Will Divide
Prize Money.

Jacksonville school pupils were remarkably successful in the competition in the school work exhibit at the state fair in Springfield this week. It was the first time the local schools have ever sent any work to the fair and the teachers knew but little of the details of the work. Despite these handicaps the schools took four first premiums, one second and six thirds.

In speaking of the exhibits last night Superintendent H. A. Perrin said there were many exhibits and that he was well pleased with the success of the schools. It is the intention of Mr. Perrin to display the winning exhibits in some down town window in a few days together with the names of the pupils who furnished the successful work. The premiums awarded totaled \$52. In cash and this will be divided among the pupils whose work won the ribbons.

The winning exhibits follow:

First on comparative charts showing important products of Illinois, the United States and all parts of the world.

First on four geography booklets containing facts concerning the state of Illinois.

First on written dramatization of historical events in Illinois history.

Third on five sets of four maps each showing the growth of the colonial possessions of the United States.

Third on three sets of original eighth grade percentage problems, by three pupils.

Third on set of original pictorial landscapes from lower grades.

Second on set of paper hand con-

struction from First and Second Grades.

Third on collection of problems in grade school needle work illustrating basting, running stitch, over casting, hemming, etc.

First, second and third on Sixth grade sewing consisting of side board sets, center pieces, dinner sets, dresser sets and dollies. No competition.

Third on high school garment making.

DISCUSSES CO-OPERATION IN LOWERING FOOD PRICES

Peter Hamilton Addresses National Conference on World's Food—Describes Inauguration and Development of Co-operation Thruout the World.

Philadelphia, Sept. 14.—Legislation and proclamation intended to restrain the disposition toward exorbitant prices can have only temporary and imperfect result because they touch only superficially, if at all, the fundamental cause of extortion. Peter Hamilton, vice-president of the Lawyers' Mortgage Company of New York, said in an address here today. Mr. Hamilton discussed "What Cooperation Can Do and is Doing in Lowering Food Costs" at the National Conference on the World's Food being held under the auspices of the American Academy of Political and Social Science.

Mr. Hamilton emphasized a distinction between producers' and consumers' cooperation, holding that the former has for its underlying motive the making of excessive profit and the raising of prices. Consumers' cooperation, he said, is born of a pressing necessity to reduce costs.

Will Succeed in Reducing Prices.
Mr. Hamilton described the inauguration of cooperation by the Rochdale Pioneers in 1844 and its developments thruout the world, asserting that the cooperator will succeed in bringing down food prices where the legislator, the reformer, the Socialist, the syndicalist and others have failed.

"Scarcity of supply, greatly increased demand, one or both, are the legitimate immediate causes of high prices," the speaker said. "Monopoly, artificial scarcity induced by withholding supplies from an eager market, cupidity, employing one pretext or another, are the immediate causes of extortion. But back of monopoly, back of cupidity, and chicanery, is the selfish motive of private profit. It is for this that men cheat each other and descend to all the unfair practices which have puzzled legislators and reformers. This is the fundamental cause of extortion and sharp practice between men and between nations. Indeed, if complete analysis be made, it is the cause of war itself.

"Our legislators and reformers are like the old fashioned practitioner, frantically treating symptoms with strong measures and not effecting a cure. The socialists, on the other hand, are good diagnosticians. They know the cause but they are short on therapeutics, and their remedy would be likely to throw the patient into fits. The syndicalists, known in this country as the Industrial Workers of the World, have, like the socialists, diagnosed correctly, but their remedy would be the knife, a radical surgical operation at what ever risk to the patient.

Outcome Not in Doubt.

"The Cooperator is the only one among these economic doctors who has the correct diagnosis and whose remedy will effect a cure by removing the cause without unduly upsetting the patient. He knows that the disease is chronic and must be subjected to a long course of treatment adapted to the patient's constitution. He does not believe in excessive doses that may disturb the digestion and nervous system of the invalid. His purpose is a complete cure, but he realizes that he need not hurry and does not administer his remedy faster than it can be absorbed and assimilated. Thus will he succeed where the others have failed and the outcome is not in doubt the time of its full accomplishment may be deferred."

Mr. Hamilton said that in the United States cooperation has made slower progress than in Europe but that it would now probably develop rapidly.

COMPANY B ENTRAINED FRIDAY MORNING

Company B of this city entrained with the Fifth regiment Friday morning presumably for Camp Logan, Texas. Mayor Rodgers received a telegram from his son Jay Rodgers, a member of the company, that Company B was the first to load. The company has been expecting orders for some time and the equipment consisting of sleepers, coaches and baggage cars has been assembling for several days. With the departure of the company that contains so many local men and the expected departure of the men from the city and county for Camp Taylor the way is brought a little closer to us.

A LUCKY THIEF

There is one sneak thief in Jacksonville that was mighty fortunate in having a whole hide Friday.

The only thing that saved him was the fact that a west side resident was unable to find his shot gun shells. This gentleman was awakened at an early hour Friday morning, about four o'clock by his alarm clock. The clock was supposed to have been set at the usual hour, six o'clock, but the young son of the family, a little fellow about four years old, evidently did not think this an early enough hour and undertook to change things. After the aforesaid alarm had been quieted and peace restored in the household, the gentleman had not yet gotten back to sleep when he heard stealthy footsteps on the back porch, where his refrigerator is situated. On three previous occasions the doctor has had trouble of this kind and his supply of good things to eat raided. Jumping out of bed he grabbed his shot gun and strove to find shells for the same, but it seemed he could not locate them without some search which occupied sufficient time to allow the marauder to depart. The householder is awaiting his opportunity and promises that the next time he has an early morning visitor of this sort he will have a supply of shells handy.

THE ANNUAL BURGEOO

The long expected Nichols park burgoo for the school children of the city will take place today. Several hundred gallons of savory soup will be placed at the disposal of the children and it is needless to add that the event is being anticipated with great eagerness by the little folks of the city. Holders of tickets are especially warned to remember that their cars will leave the south side of the square only at 9:30 and 10, but their badges will be good for returning on any car after dinner.

The management has also arranged for a number of athletic events to begin at 9:30 a. m. and Fred Darr and Physical Director Weddell of the Y. M. C. A. have kindly agreed to take charge and the events will be as follows:

List of Events
25 yard dash—Boys, age 10 to 11.
25 yard dash—Girls, age 10 to 11.
50 yard dash—Boys, age 12, 13, 14.
50 yard dash—Girls, age 12, 13, 14.
75 yard dash—Boys, age 15 and over.

Potato race—Boys.
Potato race—Girls.
Running broad jump.
Standing broad jump.
Nail driving contest—Girls any age.

Visitors will be very welcome at any time but the management is compelled to say that absolutely no soup will be for anyone except the holders of tickets. Last year the threatening weather in the morning kept a good many at home and consequently there was some soup to spare, but this year the weather will be so pleasant that ticket holders will absorb all that will be made.

FIGHT FOR YOUR LIFE

Duty Demands Robust Health

Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by illness and all. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a prey to illness after all.

You will not find this class of persons in the hypoferrin ranks. No unhealthy, dull, drabby, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferrin stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferrin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferrin contains those mighty strength-producing agents, lecithin and iron peptonate, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition, sallow, pale complexion that "all in" feeling and frail bodies are due to lack of lecithin and iron peptonate in the system.

Your mental and physical strength and endurance depends upon a lecithin-and-iron peptonate laden blood; steady, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferrin, which is as perfect as science can get to nature, meets every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoferrin means nature's own way of bringing color to the cheeks, strength to the body and keeping the vigor and buoyancy of youth. The powder and paint way of effecting beauty is not needed by hypoferrin women and girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferrin ranks. It puts into you the springy snap and vigor you ought to have and puts life into your body and mind that inspires the confidence that you confront the world on an equal footing with anyone. Hypoferrin may be had at your druggist's or direct from us for \$1.00 per package. It is well worth the price. The Sautel Remedies Co., Cincinnati, Ohio.

RELATION OF WAR TO EDUCATION DISCUSSED

By Superintendent of St. Louis Public Schools in Address to Teachers at Opening of Term — Forecasts Economic Conditions at Close of War.

St. Louis, Sept. 14.—The relations of the war to education was discussed by John W. Withers, superintendent of the St. Louis public schools, in a recent address to teachers at the opening of the fall term.

"The school," he said, "should cling tenaciously to the fundamental purpose for which they were established, and are now being maintained. More, rather than less effort, at education and the conservation of the child should be our aim. What is the use of making the world safe for democracy, if in doing so we allow the coming generation to be so neglected in mind and body as to be unable to take advantage of or enjoy its benefits?"

"The nation, even tho, at war, has no more important duty than the conservation of the physical, mental and spiritual life of the children."

After speaking of probable economic conditions at the close of the war, and of the damage done by the war to education in Europe, he added:

"We need to use every proper means to keep the children in school and to prevent their exploitation in these trying times. We need to see to it that the schools are interrupted as little as possible in the proper discharge of their functions."

"This does not mean that the fact of our being at war should not influence the work of the schools. The situation imposes new opportunities as to what to teach and how to teach it. Among them is the opportunity to teach more effectively than before the facts and principles fundamental to democracy as we know it and believe in it in America; the opportunity to teach to those who are capable of understanding it the meaning of the war and why we are in it."

"To this end the great state papers of President Wilson and various current happenings should be utilized."

"There also is the opportunity to show how a great nation organizes itself so as to economize its energies in time of war. There are also lessons of self-sacrifice and devotion to the country and to the cause of humanity."

BIRTHDAY ANNIVERSARY OF GENERAL PERSHING
Man in Charge of American Expeditionary Forces in France is Fifty-seven Years Old—Younger Than Majority of European War Commanders.

Washington, D. C., Sept. 14.—This is a date that is likely to be remembered and perhaps celebrated by future generations of Americans, for it is the birthday anniversary of Major General John Joseph Pershing, who stands out as the most prominent officer of the United States army at this early stage of the great war. It is fifty-seven years today since the man who now commands the American expeditionary forces in France first saw the light of day in Linn County, Mo.

General Pershing is younger in years than the majority of the commanders in the European war, though not by any means the youngest. General Sir Douglas Haig, the commander of the British forces on the Continent, is General Pershing's junior by several months, while the youngest of all is Lieut. Gen. L. G. Korniloff, the victor of Galicia and the present commander-in-chief of the Russian armies, who is a full decade younger than either Pershing or Haig. The oldest of the general commanders is Field Marshal Von Hindenburg, chief of the general staff of the German army, who will reach his seventieth milestone next month. Next in age comes General Count Luigi Cadorna, the Italian commander-in-chief who has been delivering such smashing blows against the Austrians of late. General Cadorna has just passed his sixty-seventh birthday. General Petain, the French commander-in-chief, is sixty-one years of age.

ANNIVERSARY OF AMERICAN VICTORY
Washington, D. C., Sept. 14.—In these stirring times it is interesting to recall today as the 70th anniversary of the capture of the city of Mexico by the United States army under Generals Scott and Taylor, which marked the virtual conclusion of our war with the southern republic. In comparison with the millions of soldiers engaged in the present great conflict in Europe, it is likewise interesting to note that the army which marched behind the Stars and Stripes into the Mexican capital on this date in 1847 numbered only 12,000 men. Successive defeats and taking of prisoners had reduced the fighting forces of the Mexicans that the taking of the capital was a comparatively easy matter, the victories of a few days previous at Molino del Rey and Chapultepec having completely disheartened the Mexicans.

GOOD FIELD FOR AUTO RACE
Providence, R. I., Sept. 14.—Those who are in charge of the automobile race meet to be held at the Narragansett Park speedway tomorrow are well satisfied with the number of entries received for the five races that have been scheduled in the 100-mile derby, which will be the big event of the day, the contestants will include Chevrolet, Pugh, Vail, Henderson, and several other drivers who are considered among the most prominent in the country.

GREENE COUNTY BOYS WILL LEAVE SEPT. 20

SEVENTY-THREE MEN COMPRISE NEXT CONTINGENT.

Will Assemble at Carrollton Next Thursday—White Hall Banquets Honor Men—Names of Those Drafted.

White Hall, Sept. 14.—Seventy-three names comprise Greene county's quota of the next contingent of the new National Army, and the full list of names have been certified. The official notices are being prepared at Carrollton beginning today and they will be mailed out next Monday. The call will be made to assemble at Carrollton next Thursday, and that evening the contingent will depart for Camp Taylor, Louisville, Ky., to begin their training for Uncle Sam's service.

Various functions throughout the county have marked the departure of the boys from their various home communities, and more will follow between now and the time of leaving. White Hall will banquet the home boys tonight and again next Monday night, the first event being arranged by the local lodge of Royal Neighbors, and the second by Ballow & Campbell.

George Geers, of Carrollton, will be the man in charge of the boys on their journey to the southern camp, and he will have a requisite number of assistants who will be named on the assembling of the county contingent. SOX BUNCH HITS AND DOWN DETROIT

CICOTTE ALLOWS ONLY FOUR
HITS UNTIL NINTH.

Eddie Collins' Hitting and Running
and Gandil's Stick Work are Large
Factors in the Victory—Chicago
Holds its Lead of Eight full Games

Detroit, Sept. 14.—By bunching
hits off Mitchell today, Chicago won
from Detroit 7 to 3. Eddie Collins' hitting and base running and Gandil's stick work were large factors in the victory. Cicotte allowed Detroit only four hits up to the ninth inning when he eased up and permitted three more. By winning today's game here while Boston was defeating New York, Chicago held its lead of eight full games in the pennant race. Chicago to date has won 92 and lost 47 games, while Boston has taken 82 and lost 53.

TEACHERS OF GERMAN NOT IN DEMAND

Mandan, N. D., Sept. 14.—Instructors of the German language are not in demand in the northwest according to Miss Harriet Scultie, who resigned her position as teacher of German in the Mandan high school and has written the school board asking if the position was still open. "It is almost impossible to find a position as instructor in German," she said. "Throughout the northwest, high schools are abandoning the teaching of German or are cutting down the course merely to let those who have already started the subject complete the work."

NAME STREATOR FOR CONFERENCE

Macomb, Ill., Sept. 14.—Streator, Ill., was chosen today by the Central Illinois conference of the Methodist Episcopal church as the place of holding the next session, and committees were named to shorten the conference program in the future. The list of appointments will be announced Saturday. The conference will end Monday.

**IN SPITE OF
LOW PRICE**

People of means have always taken to
Fatimas in spite of the low price. One proof
of this is Fatima's popularity at the big Auto-
mobile Shows, both in the East and West.

Even at the Chicago and New York
Shows last January Fatimas outsold all
other cigarettes.

There's a mighty good reason for this big
leadership: Fatima's Turkish blend gives
more than fine flavor alone, more than com-
fort to throat and tongue — *Fatimas never
disturb* even though you may smoke all
day long.

You'll find Fatimas sensible—as sure as
you try a package.

BUILD WINTER BARRACKS AT TRAINING STATION

Contractors Exert Every Influence
to Expedite Work at Great Lakes
Training Station—Ready for Oc-
cupancy Oct. 1.

Great Lakes, Ill., Sept. 14.—Con-
tractors who are building winter
barracks in the camps for bluejack-
ets in training at the Great Lakes
Naval Training Station are racing
against the coming cold weather,
and are exerting every possible in-
fluence to urge the laborers and
carpenters to expedite the work.

The jackie had no difficulty in
sleeping warmly to date although some
cold nights have been experienced,
but getting into and out of his blank-
ets is a chilly process with the cold
winds from Lake Michigan piercing
his tent sides. Consequently he is in-
tensely interested in getting into the
permanent barracks being constructed
for the winter months.

The winter camps, for the most
part are adjacent to the main camp
where tents are now used. Along the
roadway which is the principal
highway between Chicago and Mil-
waukee, patriotic slogans designed
to give impetus to the workmen,
furnish interesting reading for
tourists.

"The more hustling you do per
day, the sooner we'll beat the Kaiser",
one slogan reads, while another is:

"Do your duty and quit kickin'".

Help give the Kaiser his kickin'.

More than 4000 men are employed
on the new camps which are located
west and south of the main camp.
Some of the barracks already are
occupied with companies detailed to
guard duty. Practically all of them
will be ready for occupancy by
October 1.

Ladies will be pleased with
the styles, quality and prices of
Furs shown by FRANK
BYRNS' Hat Store.

BEANS TAKE THEIR PLACE AS AN IMPORTANT CROP

Washington, Sept. 14.—Beans take
their place this year as one of the
country's most important and val-
uable crops. Forecast of production
in the five important bean growing
states, Michigan, California, New
York and New Mexico, announced by
the department of agriculture today
in a special report shows 19,969,000
bushels compared with 8,846,000
bushels last year and 10,321,000
bushels in 1915.

CROWN PRINCE IN BERLIN

London, Sept. 14.—The German
crown prince has arrived at Berlin

despatch from Amsterdam. He has
had a long conference with the em-
peror regarding the matter of the
Polish situation as mentioned in the
pope's note.

DIES OF INJURIES.

Bloomington, Ill., Sept. 14.—Har-
ley Swisher, a prominent young man
of Clinton, Ill., died this morning
as a result of an automobile accident
late yesterday afternoon near Hall-
ville, when a cow ran across the
road and was struck. Four others
young men who were occupants of
the car escaped with a few cuts.

Altered War Words.
An examination of modern military
terms reveals the fact that very few of
them possess the meaning originally
assigned to them. Munitions, for ex-
ample, in ancient times signified not
only the materials of warfare, but also
the fixed defenses of an army. Thus
the translators of the authorized ver-
sion of the Bible use the phrase "mu-
nitions of rocks" to translate "impre-
nable rock fortresses," and the defend-
ing army is charged to "keep the mu-
nitions" when the meaning is "guard
the fortresses." Carriage is another

WAR WILL BE ELECTION ISSUE IN THE SOUTH

Many Senators Soon to be Chosen in Southern States—War Records Will Count.

Atlanta, Ga., Sept. 14.—In no other section of the country is the war likely to figure so prominently in politics in the near future as in the South. The voters in every southern State, with the single exception of Florida, will be called upon next year to make a choice for United States senator. As a rule the senatorial campaigns in this section begin earlier than elsewhere in the country, and even at this early date the preliminary skirmishing is well under way in several of the States.

Of the southern senators whose terms will expire in 1919 there appears now to be scarcely a one who is assured of re-election. In Tennessee Governor Rye is expected to be a candidate against Senator Shields. In Arkansas former Congressman Stephen Brundidge has taken the field against Senator Robinson. In Alabama there is much talk of opposition to the return of the veteran Senator Bankhead. In other States also there are many outward and visible signs that the senators who come up for re-election next year are going to have a fight on their hands.

At the present time, however, the most interest is centered on the contests developing in Georgia and Mississippi, against the re-election of Senator Thomas W. Hardwick and Senator James K. Vardaman. In both contests the issues promise to be clear-cut and well defined and it is certain that the candidates who oppose these senators will put themselves forward as champions of the Administration and stake their hopes for the Democratic nomination upon their ability to show that their opponents have more or less embarrassed and annoyed the President and his supporters in their war program.

No Local Issues.

In fact local or State issues are expected to have little to do with either the Georgia or Mississippi campaign. Each will be a clear-cut fight on the issues of war. On this basis many close observers of political conditions are of the opinion that the Administration's candidate will have an excellent chance of victory.

Senator Hardwick, when he was nominated to fill the unexpired term which he is now serving, was elected largely because he seemed to be the personal choice of the President over all the candidates in the field. There are some in Georgia who declare that Senator Hardwick has entered since his election into an active opposition to the Administration and in a way, proved false to a trust. The man who appears to be most prominently mentioned to defeat him is William J. Harris, who has a long record of public service for the State and Nation. Mr. Harris is a native Georgian, a graduate of the State university and a former chairman of the Democratic State committee. He served for some years as Director of the United States Census and is now chairman of the Federal Trade Commission. He is known as an intimate friend of the President.

The Harris Candidacy.

The Harris candidacy has not yet been formally announced, altho the preliminary work of his campaign is already under way. A number of the leading newspapers of Georgia are out in support of his candidacy. Despite Mr. Harris' wide acquaintance and splendid record of public service, it is generally conceded that he will not have easy sailing in a contest to defeat Senator Hardwick for the nomination. The Senator, altho still a comparatively young man, has been active in Georgia politics for many years and has a large personal following. Moreover, he is practically assured of the support of the large Watson element, led by the former Populist candidate for the presidency, Thomas E. Watson. Senator Hardwick has, in addition, a reputation for appearing to best advantage under strong opposition and for waging a clever and thoro political fight.

CITIZENS SHOULD BE CAREFUL ABOUT FIRES

Owing to the bad condition of the streets on account of paving and other improvements, all citizens are urged to be as careful as possible about fires. A little extra precaution may result in the saving of valuable property.

INFORMATION OF VALUE FROM FOOD SURVEY

Department of Agriculture's Movement Described by Helen W. Atwater in Address at National Conference on World's Food—Various Types of Records Provided.

Philadelphia, Sept. 14.—If the Department of Agriculture's food survey, now in progress throughout the nation, discloses that large sections of the population appear to be eating more than the standard dietary requirement the Government will "be more than ever justified in urging them to curtail for the benefit of our Allies," Helen M. Atwater, Scientific Assistant of the Department of Agriculture's States Relations Service, said here today. She addressed the National Conference on the World's Food, held by the American Academy of Political and Social Sciences.

The food survey was begun on Aug. 31 and was authorized by a recent act of congress. "The results of this first survey," the speaker said in part, "cannot fail to give valuable information as to what food materials the country possessed and where they were located; but those responsible for it consider it chiefly useful as testing out the machinery for the second survey which it is planned to make in November or December by improved methods. From the results of the two together they are confident that the annual food supply of the nation can be calculated more accurately than by the method used abroad."

Measures Nation's Stock of Food

"The unprecedented value of the food supply as a guide to the nation's dietary needs lies in the fact that in addition to measuring the nation's stock of food it has planned to provide reliable information as to what people actually eat in different parts of the country and in families of different circumstances."

"This is to be accomplished in two ways. The first is called a food consumption survey, and in the preliminary survey was made with the co-operation of 3,500 housekeepers visited for the household stocks records. Each was asked to keep a daily record of the food used by her family for seven days. Blank were provided on which all the common food materials were listed in a way which she could understand, and she was simply asked to put down the amount of each in the space provided. Entries were made of the age, sex and occupation of the members of the household, their guests, the number of meals eaten by each. As much information as possible was collected regarding the health, racial stock, income and general economic conditions of the family."

To Make Dietary Studies

"For more accurate information as to the kind and amounts of food consumed, another type of records has been provided. These are known as dietary studies, the method of making them has been in use for forty or fifty years, and any intelligent senior in a college course in home economics should be able to conduct one. All the food on hand at the beginning of the study, all that is procured during its course, and all remaining at the end, are carefully weighed and recorded. All waste and refuse also are noted. From these the amount of each food material actually used is determined. The percentage composition of each is then obtained from standard tables, or, in rare cases, specially found by analysis, and by the use of these figures the protein, fats, carbohydrates and energy provided are readily calculated. In these dietary studies accurate note is made of the age, sex, weight, general condition and occupation of the different members of the family by means of which the nutrients and energy actually consumed per person or per man per day are calculated. As full information as possible is also obtained regarding the income, health and general standards of living."

"If, in spite of high prices and general dislocation of the usual sources of supply, large sections of our population appear still to be eating more than the standard requirement, we shall be more than ever justified in urging them to curtail for the benefit of our allies. Moreover we may find that in many, perhaps in most, sections of the country our food habits have not yet been disturbed to any important extent."

IS TAKING VACATION

Jacob Magid, chief clerk of the Pacific hotel is enjoying his annual vacation. He expects to visit relatives in Panama, his former home and also will visit in St. Louis and other points. He will be gone about ten days.

NOTICE

State of Illinois, Morgan County, ss. In the Circuit Court of Morgan County, November Term A. D. 1917, Louise E. Masters, complainant, vs. Gilbert L. Masters, defendant.

Affidavit of the non-residence and the unknown residence of Gilbert L.
